SUMMARY

Aspiring Front End Engineer in React, TypeScript, SASS/SCSS, JavaScript, REST APIs, Git, HTML, CSS combining technical excellence with user-centered design principles for web application user interfaces.

EXPERIENCE

Internship - React Developer   2024
Seven Mentors   Pune, India (Remote)
- Led creation of design system of Ecommerce and Music application with 30+ components.
- Enhanced skills in API integration and state management with Redux/Context API
- Gained expertise in advanced React concepts: performance optimization and testing

Associate System Engineer   2018 — 2021
Tata Consultancy Services   Pune, India
- Managing support activities based on priority to improve customer experience.
- Worked on Impact Analysis and Customer Service documentation to evaluate project impacts, while also adept at documenting Test Case Scenarios and Agile Software Development.
- Integrated SQL with CRM tools to streamline job scheduling and execution.
- Mentor 2 engineers, 2 of which have been promoted.

EDUCATION

Master of Science in Information Technology, University of Denver (GPA: 4)   2023 — 2024
Denver, United States
- Concentration : Web Design and Development
- Intuitive and scalable interface web applications using HTML5, Javascript, React, and RESTful APIs.
- Utilized Docker for containerization and implemented solutions for cross-browser compatibility and debugging.
- Writing comprehensive documentation for a full-stack application.

Bachelor of Engineering in Computer Science, Pune University (GPA: 3.5)   2014 — 2018
Pune, India
- Studied computer science fundamentals, focusing on advanced data structures and algorithms.
- Learning about encryption, hashing, and secure communication protocols.

SKILLS

Programming Languages   JavaScript, CSS, TypeScript, Redux, ES6, Mapping, bash, SCSS, SQL, Figma, Handlebars.js, HTML
Frameworks and Libraries   React.js, jQuery, Bootstrap, vite, Express.js
API and Integration   REST
Development Tools   VSCode, Git/GitHub/GitHub Pages

PROJECTS

Music App   2024 Present
- Utilized Spotify developer tools and documentation to create a product displaying albums, their tracks, and search functionality. Implemented a sign-in system with OAuth 2.0 API authorization to obtain an access token, which is used in API requests via RESTful APIs and React Components.

Ecommerce Application   2024 — 2024
- Mobile Application Development using Flutter and Dart, ensuring compatibility for both iOS, Android and Web.The app includes user authentication, product browsing, personalized user profiles, a seamless checkout process, and an order history feature with Server-Side coding delivering a smooth and engaging user experience with cross browser compatibility.

OfficeChatter   2024 — 2024
- Client Facing Twitter-like page layout for employees to post tweets, featuring pagination for improved UX. Utilized GET and POST APIs with JSON data for dynamic content, ensured responsive design using media queries, Also used Handlebars for efficient templating

Ecommerce - Clothing   2024 — 2024
- Added features like user registration and login system with dynamic profile management for screen name and theme color personalization using JavaScript and DOM manipulation for real-time updates. Product displays using JSON data for men's and women's shirts, and implemented cart functionality with local storage to show updated prices, quantities, and totals.

VitaCare Link   2024 — 2024

- Prototyped UX for an integrated health management application layout user Interface, focusing on Figma for software feature design.

Pacifica [Link](#)
- Responsive website for a fictional restaurant, Bootstrap for CSS. Enhanced the user experience with REST API integration for menu display, implemented an admin page for to add/delete menu and utilized the Leaflet JavaScript library for an interactive map and responsiveness.

Restrobar [Link](#)   2023 — 2023
- Implemented low to high-fidelity prototype, JavaScript DOM manipulation for dynamic carousels, and developed REST APIs for menu retrieval and posting admin page.

AWARDS

Junior Employee of the Month
Tata Consultancy Services
Received 5/5 year rating for exceptional attention to detail, dedication to achieving team goals, and positive feedback from supervisors and colleagues.

VOLUNTEERING

Educator, Right At School   Fremont
Web Event Host, Event head for web development participated by 10+ colleges.   India
